Wedding of Q & U

Today, Ms. Blanton & Mrs. Stumpe's Kindergarten Class participated in the Wedding of Q & U. This has been a Kindergarten tradition for many years!

Tips From Title I

Help Your Child Avoid the Summer Slide

What is the Summer Slide? The summer slide refers to the loss of skills that often happens over the course of the summer months. It is a real problem and it is one that teachers spend a lot of time worrying about. I am going to give you a few ideas to help your child avoid the dreaded summer slide, and in turn, make the beginning of the next school year a lot easier for them.

- First of all, attending summer school is always a great idea. This gives them the opportunity to keep those skills sharp and progress even farther while having a lot of fun doing it!
- Keep them reading! Studies show that students can lose up to 25% of their reading skills over the summer months. This can have a huge impact on their ability to get back into the swing of things in August.
- Hang on to those Math Facts! Losses in math tend to be even higher than those in reading. Keep your child doing some sort of math daily to keep them sharp. Math is everywhere! All you have to do is look!
- Exercise! Of course we can't neglect their physical health. Keep them up and moving as well.

Summer is the greatest time to get creative with all of these things. Have fun!
