K-4

This week in K-4 we discussed positive thinking. Students learned about having a growth mindset and understanding that even when they can't do something, it's really that they can't do it YET. The word "YET" can be very powerful for students in understanding that sometimes it takes time to learn things and become good at them

5th

In 5th grade we talked about problem solving and how we can work together as a team to accomplish things. We talked about the importance of effective communication with others while building our spaghetti space stations.

6-8

Middle school students looked the world around them and discussed ways we could make they world a better place for everyone. We listened to the song "Man In The Mirror" by Michael Jackson and discussed the meaning of the lyrics. Then students created a pennant and wrote about how they will change the world

Spring Bluff Parents as Teachers

The Parents as Teachers (PAT) program is a research based early childhood home visiting framework that builds strong communities, thriving families and children who are healthy, safe and ready to learn. PAT helps to establish positive partnerships between home, school, and the community and plays a vital role in supporting families and children from the very beginning toward school readiness. A trained parent educator emphasizes parent–child interaction, development centered parenting and family well–being in their work with families. The PAT program consists of four components: personal visits, group connections, screenings, and resource referrals. Together, these components provide families with children, prenatal to kindergarten entry, a program of support so that children are able to reach their full potential. For more information, please contact our parent educator, Pam Richards at (573) 457–8302 or prichards@springbluffpirates.com
